Insects and the Weather. SOME INTERESTING OBSERVATIONS. me observations on the character of the ensons in connection with the attendance particularly some who may be still plement them with others of their Belleving the part played by. the economy of nature in 'exceed' porting one, and the present run an opportunity is raidly cents, what doglent to ditions make the consections strikingly. Hear, I am tompted to mention the subject even though of late other occupati prevented any at all extensive ob-

All collectors continually not and downs to the abundance of a rese Indispersible creature, and officially conthe season. Prof. and Mrs. C. H. Fernald, late of our State College, have often spoken apoken with me on the subject as inc

was one of pleaty, then followed one of iving way to the return, which n rest abundance. Laying asid uses of unusual pleaty of sectain n periods of general scarcity, general observation shows that such periods of pleu-ty before and searcity after '81 really exthe follage in woods and in town very general albbling which teen much less conspicuous, while too th ppearance of fences, and buildings has need much cleaners. The Apple the Tent-nurpillar, (Clialocamps, Americans,) has cen unusually pleaty in '88, and (wher p-river towns, they have made a sad cene hut we have reason to consider 87 and 88 the turning years to plenty. Colreting by day or night in woodle, in bog

and in graden and field; confirmed the ylew

The second Saturday in July, 1883, occurred here a quite violent thurder and, wind storm that blew down many trees in he woods. If not very slogular nitself, yet in its results or in a certain colonidence my obremarkable incident nerhans in all cckoning point, even before't learned of ss connection with other striking phenomou. Any storm must destroy great num pers of these little beings, but this one orgen part, for on resuming, the next tries, long efforts but showed the utmost of all the year must abundant! Correspondence, about this lime, with collectors lights were visible, experience, persisted routh and west, brought complaints in confirmed me in the idea that it was enough. From Florida it was as in Ohio useless to expect but the increas trille on and here, One wrote that the kine of such hights. Then by report and observation in the unusual plenty of Pyramels estimate the unusual plenty of Pyramels estimates would be seen large sun-spots. du! (our red and black thiselo butterfly)

many animals, higher in the seale, there may have been a correlated scarcity in fish birds and insectivorous mammals. This seems to be unfact, but I can only note the general newspaper reports great sufferings among the Laurador fish-comen a few seasons back; refer to the fish market reports of general or particular

to west of the reappearance, after some vention, and in most numerous ways we was not entered by their presence or absence.

oming back the past stason or one before.

weather, it seems that 183 unhered in a and books, seem to have traced a periodic series of cold and unfavorable winters and movement of the Locust and the Army series of coid and unfavorable winters and summers. Our winters, of late, have been unusually severe, especially, if, I community with sums considerable agreement with summers. Our winters, of late, have been unusually severe, especially, if, I communicated and considerable agreement with summers. Is to considerable agreement with summers and summers. Is to considerable agreement in away of magnetic fact the folia of the first seasons. It is being the bottest for concluding plant, it being the bottest for concluding the folia of the considerable agreement in the first seasons. The extremes for two years have been wide apart, it is a hour of its summer. So so, cook, and law of its and analysis of its summer, it is summer, it is summer, it is summer, it is summer it is summer. So so, cook, and law of its summer is summer, it is summer, it is summer, it is summer it is summer, it is summer it is summer. It is summer it is summer, it is summer it is summer, it is summer it is summer. It is summer it is summer, it is summer it is summer it is summer. It is summer it is summer, it is summer it is summer it is summer. It is summer it is summer it is summer it is summer it is summer. It is summer it is summer. It is summer it is summer. It is summer it i

crops; suffering in least of food, time and money, as also their cattle in their food and comfort. Bees have died, and bee keepers have fight heir forth that case all the flife, so very varied, on and comfort. Bees have died, and bee keepers have fight heir fertilizing activities in pollenation, the grips of seed are short. Contradors missed calculations by the unfavorable weather, and now tee men are in a mess of uncertainties. In England, in December, many flowers coming out of season and fruit trees showing an injurious indicated by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series of the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the past summer, ever to the flexible the series by the series of the series by the series of the series in predicting a wet season, but the June drought witted my theory, as it felt safe is predicting a wet season, but the June drought witted my theory, as it burned our plants. However, a little later, faces and theories went together as wantingly.

While the general tendrough has been to warmth, the position in a region of fire recommendation in a region of the recommendation in a region of the series by the series of the series been plants, the output of the series is predicting a wet season, but the June drought witted my theory, as it burned our plants. The largest call is the big five-masted selected in the position is provided as the provided and the provided as the provided and the provided as the provide

Finally some intelligence of such ode, so varied and pronounced in relation to all the life on the globe, seems well deserving of some consideration by most of collections, I was told that such and such us, and not out of place in our daily paper, insects, were components after a few while some of our institutions—as our us, and not out of place in our daily paper, that State Collogo-might well consider it and justow of the report.

[Regular Correspondence While and Courter.] Mr. D. Hulchinson, of this village, recently slaughtered live last spring plus." eleven months old, the united weight of sun-spots. These spots go in sycles of which amounted to 1.010 pounds, average yeare, and when-weight 382 pounds. The largest one a period in our weighed 360 pounds, and smallest 375, observations, we feet we are lead to great a difference of only litteen pounds. Mr. laves of action outside our world. The lm- Hutchison who has given considerable attention to the raising of pork and 'ought' to be an authority in the matter, says: I have obtained, by far, the best results by pushing spring pigs for all they are worth the first year and then marketing them. - A surprise party met at Mr. E. K. Win gate's, on the East Ridge, in this town, February 16th, and coloyed a pleasant

evening. Dumb Crambo, in which the afforded much amusement. The pleasures of the evening were enhanced by a musicale at the close, many fine slugers present taking part! Mes Cora Soule presided at the

and Sumitra and neross the Straights of visiting her many friends in this vicinity Sanda. The air waves resulting precorded themselves no less than four times on during the winter. Lodles of the Methodist society held cd themselves it likes thish four times on every national colly. Tecoding bardmeter throughout the world. It was no mere cashal incident, for volume and earth qualte action has a periped of its own, agreeting with that of san-spets. A phenomena, perhaps unknown before, was that of the wonderfully, besulful and astonishing sunsers and sure the factor of the fail of 33, to the modern of the fail of 33, to the fail of 33, to the fail of 33, to the fail of 34, and wife are visiting friends in this town.

log Irlends in Bucksport for a short time Some needed repairs are being made on the Academy building, preparatory to the commencement of the apring term, next Tuesday, February 20th. Indications are favorable for a larger attendance this crm than for many years past. Mr. and Mrs. James Knowless who have

been visiting their daughters, Mrs. Norcross and Mrs. Wilder, in the west for the past two years, are expected home soon.

Obituary.

SAMUEL ROGERS, OF HAMPDEN. Mr. Samuel Rogers, of Hampden, whose death was mentioned in your columns a few days since, was born in Hampden in 1899 and would have reached his eightleth year had he lived potil Murch

next. school and occasionally attending a term at the Hampden Academy, and during vacations 'worked (industriously on the

He was a son of Dr. 'Allen Rogers,' one of the early practioing physicians of the town. In 1830 he married Julia A. Harding, a daughter of one of the early settlers of the town. By this marriage there were born to them one son and three daughters dul (our red and place, united of the coming round the constant of the life which survive him except the order to be then ('84) attended by a But why should the life tes cease to hunt daughter (who died on a passage to Call seemed to be then (83) attended by or other insects, as had being modiced by others in periods past. Perhaps I may say that the period past plants, if not so fatal. This briefly as to perhaps to the food of the period perhaps to the food of the periods as the past of the periods as the period perhaps to the food of the periods as the periods as the period perhaps to the food of the periods as may be simply the chill of radiation so great loss they share the sympathy of common to such times of surers. On all community that prized his moral worth as a citizen, a neighbor and a friend. Mr Rogers was often called to do the duties of one of the municipal offices of hi town, and was, for four years collecto Tays any fues of the number evenings! [This and treasurer in succession, and his word variety, their bounds, halits, sto., are our was as good as his bond. His son and

The son (James Rogers), came, later in the fall as it became apparent that death was surely near at hand. The son and daughter both remained with him as watchful sentinols until the change came and they were greatly helped and masisted by the other daughter, Mrs. Jewiel K. Stubbe, who resides in Hampden.

Mr. Rogers was a linember of Mystic Lodge of Masons and a most constant attendent at all its meetings.

In politica he was a Republican of a yery marked and earnest type. The son will soon return to his home in Spearfish, Dakota Territory. The daughter will re-main until spring. They will be jollowed

CONGRESSIONAL

The Senate Gets Through with General Hancock.

The House Passes the Bill Retiring General Rosecrans.

After a Somewhat Lively Discussion.

Wastington, Feb. 22. Mr. Hoar moved to take up the election outrages to 26, the resolution was taken up. 11. Mr. German took the floor but yielded to a motion to proceed with the consideration of the Sandry Civil appropriation bill. The resolution was therefore laid, side and the Sundry Civil bill taken up; the question being on Mr. Hiscock's amendment, appropriating \$300,000 for expenses of the velocration of the centennial of the Constitution. onstitution.

Mr. Hoar offered a substitute for the hand

amendment sid it was agreed to without discussion or division. 111 declares Tuesday, April 30, 1889, the Court to deliver a suitable uddress jou

occasion.

The bill was reported back to the S ate and all amendments agged to in gro ate and all amendments agreed to in gross, except one for the purchase of land for additional accommodation; for the Gayernment printing office v . Mr. Call suggested that the matter could

ference askedi

lawaregulating encirons or members or Congress.

Mr. Beagan addressed the Senate in orposition to the resolution, which the declared to be for the purpose of carrying on a crushde against the Santhern Birtiss.

Mr. Hoar noved that the resolution be laid uside and the resolution be laid uside and the resolution be fine the committee on Privileges and Elections to investigate, elections are investigate, elections and committee of the property of the committee of the property of the property

realing which Mr. Harris anoved it the Senate proceed to executive highly inc. Harris' motion was rejected. It is many a lagton's birthday the Senate adjournal. The motion was rejected. It is motion was selected. It is the motion was rejected. It is motion was a lag of the water on Mr. Hone's motion grant year 22, tays 15. No quorum.

his manifest purpose of the Democratic Senators to fillbuster by alternating these motions, he would not pressitue Senate further to-night. The remark was reseated by Mr. Harris, who said nothing to justify it. At 5 10 the Senate, on motion of Mr. Hoar adjourned till to-morrow.

Mr. Anderson, of Kaneas, supported the bill.

Mr. Boutelle, of Malae, said he had ever been in favor of a geoerous recognition of the services rendered, the country by the men who followed the banner of the country in the days of trial and blood, but with the memory he had of the stitude assumed and the words uttered by Mr. Rosecrans at a time; when the House, was asked to pay the greatest of American sadders the same honor it is now asked for hieself, he (Mr. Boutsile) could not yet for the bill without, in some measure, endorsing or, condouing the sasadt made upon Gen. Graos. The remarks of Gun. Scoserums had been followed up by a promiseuous circuistion of the villification. He protested against the House giving even a quasi sudorsement of the struckurs straight upon that mean.

The Examining Board shall forthwith organize and amount of the control of the Board of Albertoch.

The Examining Board shall forthwith organize and amount of the control of the Board of Albertoches. was a very pleasant one to, invited guests and members slike. Now that these enlovable evenings have been inaugurated this season it is probable that others will i follow, and they will be looked forward to with pleasure.

THE CANADIAN PACIFIC LINE Th Canadian Pacific Railroad Company has quite a busy apring and summer's work before it in the matter of completing the line, and putting the finishing touches on that already built. As carly as possible in that already built. Ascerly as possible in Rulo I. The applicates will the spring work will be begun and Jargo sign blank applications to be o crews will be put upon the line. The whole new line will have to be sloped and the cuts made larger, and the unflutshed bridge work completed., Next month the work of building new stations to take the place of the rough structures now it; use will be commenced, and some comfortable and well arranged buildings will be constructed. It is expected that through trains to Mattawamkesg will be running in July and a fast express in September. Even in its present state it is smooth trace

Toursday atter-A BRUTAL AFFAIR. noon Mr. Georgo Roderick, who is sary Ill with paralysis, and his wife were considerably, surprised, at the entrance of David Roderick, a brother, who began making a great disturbance and angrily threatened Mrs. Roderlek. The sick man could not lie still and hear the abuse and notwithstanding his almost powerless concition, managed to risufrom his bed, grapple with the young men and throw him to the floor where he held him until the arrival of the police who had in the meanting been sent for. . Roderick was taken to the was taken to the station house and was afterwards before the Municipal Court, fined. \$5 and costs and committed. The sick man who was before 'getting' along well,

man who was before getting along well, naturally had a reinpso after the affair and was much worse yesterday.

TAKIS HIM BACK TO ITALLY, Mr. Yntor est shall require it. Maggi, labor and supply contractor for the Canadian Pacific rallyoad, who was one of the audience at the Opera Rouse.

Thursday evening, when "Little Puck" was given, at once recognized the scene of Role XI. Applicants will that the act expressly requires for of all (zaminations, whence, substituting the second of the first of the control of the little town in porthern Italy, it discovered, will Insurance the control of the little town in porthern Italy, it discovered.

Rule XI. Applicants will that the act expressly requires for of all (zaminations, whence, substituting the part of the little town in porthern Italy, it discovered. part of the little town in sorthern lonly, files of the city. Rule XII. No candidate of Mr. Maggi is a native of Italy, and line frequently been at Roverede, which is a trequency ocen as Avversus, index | 500 practy of machely named town of about six hundred inhabitants | need apply with expectation of the property of machely of mac with much picturesque scenery in its vicinity. The water in the foreground is a quite good sized lake, with clear blue tog an inquiry into their than the read of libel brilies is a power of endurance, co water-fall over one hundred feet in height. The snow capped mountains are mainly true to the original, but slightly exagerated in the rear he thinks. The fishing boat and boatmen are well painted, and Mr. Maggi thinks that a very good idea of the spot is given by the painted curtain.

Club and Good Templars, was a successful and pleasant affair well carried out in every particular. There was a large attendance and those present passed a very pleasant evening. The following was the. programme of the catertalument; Song, y a quartette composed of Messrs, Asi Morton, W. B. Goodepow, Q. T. Moody In Bunkort. and L. J. Wheelden; reading, Mr. Thomas solo, Miss Tena Gerrish; banjo duct, Messrs. Kempton and Young; song, quar- years?.
